

GO DONATE

Presented by Four Wizards

PROBLEM STATEMENT

**"Enhancing Charity & Donations through
Fintech & Technology"**

Lack of Transparency

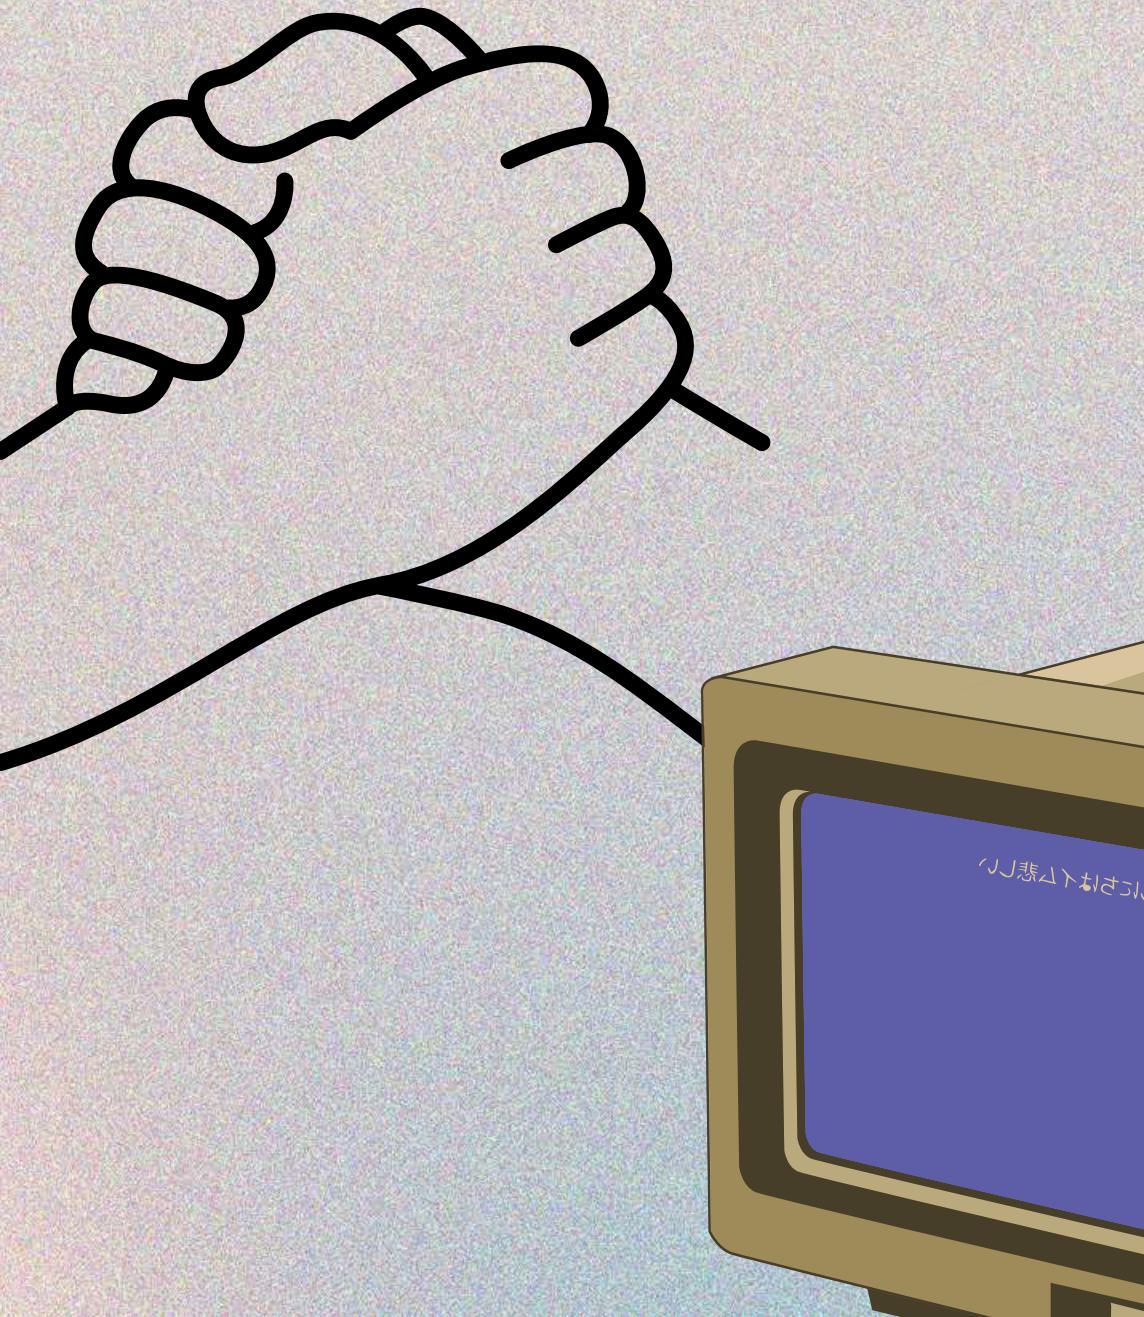

Difficulty in tracing where donations go

Inefficiency in Fund Distribution

Delays or suboptimal allocation of funds

Limited Accessibility

Barriers preventing some individuals from easily
donating or benefiting from charitable funds

SOLUTION OVERVIEW

Blockchain and Smart Contract

- Every transaction is transparent and immutable
- Provide automation and build trust to the donors

Automated & Smart Fund Distribution

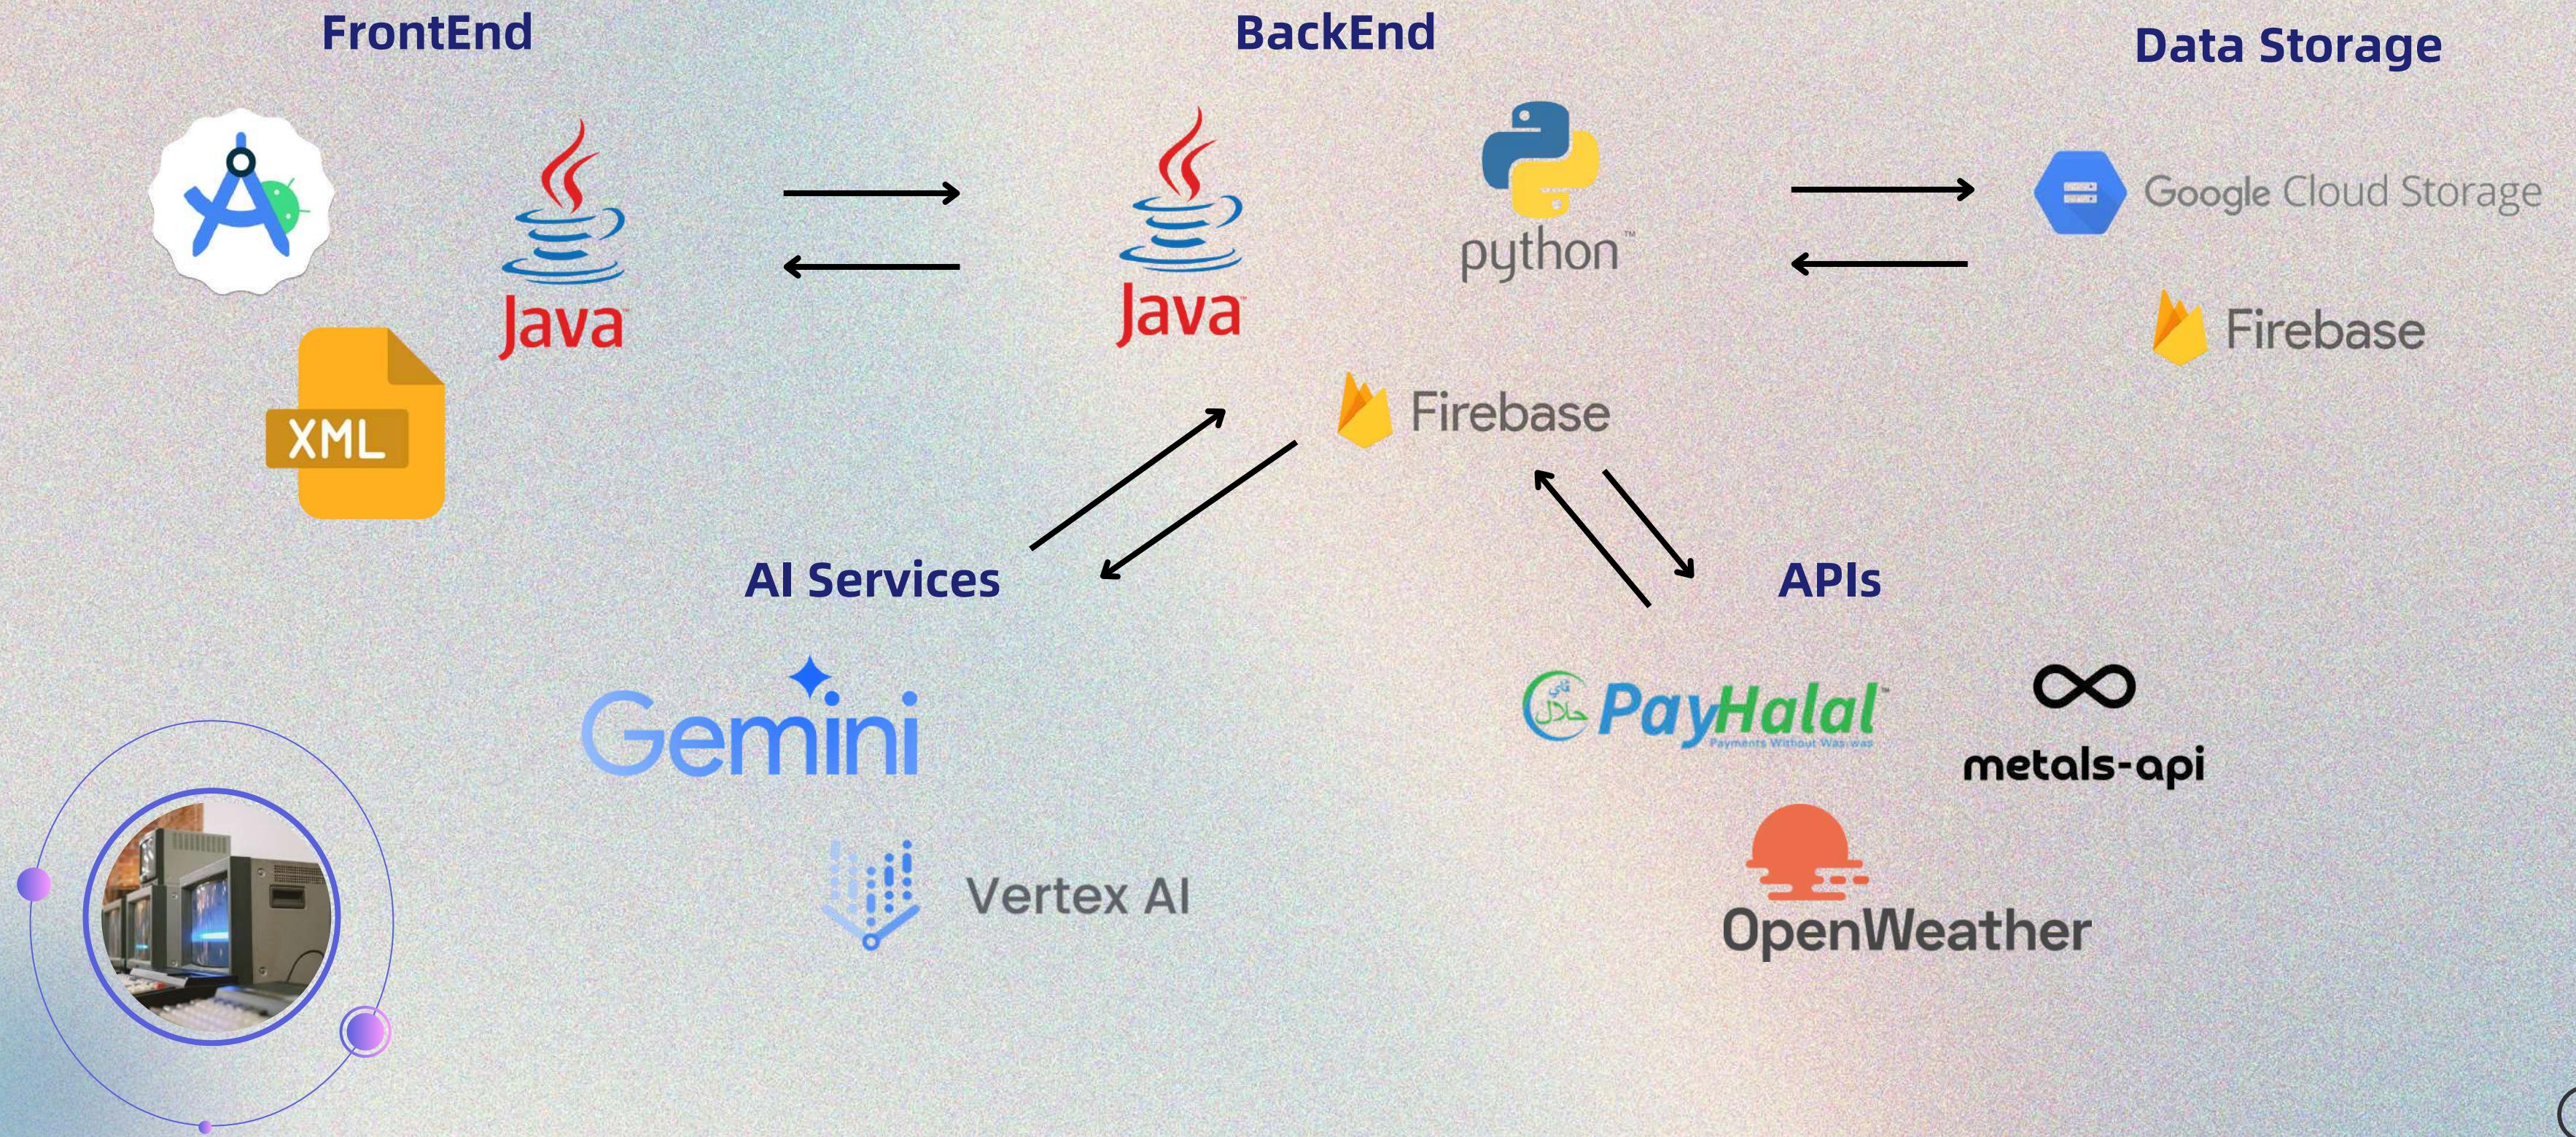

- Analyze needs of each group or project.
- Predict fair fund allocation based on previous data + urgency.

Smart QR Accessibility System

- The donor can simply ask a friend or family member to scan and pay the zakat/donation on their behalf.

SOFTWARE ARCHITECTURE

HOW CAN SC BENEFIT FROM THIS SOLUTION ?

SOLVED PROBLEM STATEMENT

Builds public trust in
Islamic financial systems

Lack of Transparency

Optimized fund
distribution

Inefficiency in Fund
Distribution

Reaches underserved and
rural communities

Limited Accessibility

TARGET MARKET

Practicing Muslims
in Malaysia

New and existing
donors

Individual looking for
tax exemption
